I have been on the board for one year and during that time I have worked for students' autonomy and voice in the school's decision making processes. As students we need to be strong and united in order to shape the current and future life of KHiO. I want to continue to strengthen the student democracy, and our communication with the school's administration. As well as opening up the school in order to tailor more of our own education. Let us take advantage of what KHiO has to offer.

I want to be a representative that you students can turn to. A representative that makes you feel heard, someone who cares about your problems. I'm going to take this task very seriously by always being available, respond quickly and try my very best in finding potential solutions. I'm looking forward to being your go-to-guy!

I've been wanting to make an effort uniting us students - no matter what section or class you belong to. My aim is to make more students cooperate and get to know each other even better!

I hope to be someone anyone of you feel comfortable talking to at any time. After all, it's your voice I want to represent! And it has also been too long since someone from performing arts sat in the board...

MAKE KHIO GREAT AGAIN
